About Airtel Xstream

airtel **Xstream**

Xstream, Airtel's video streaming platform, was started to revolutionize the way people experience entertainment and reshape the mobile entertainment streaming landscape by pushing the boundaries of technology for the greatest cause there is — Entertainment. Over 17 million people currently access 350+ Live TV Channels, 10000+ Movies, 100+ TV Shows, Originals, and much more on the Xstream iOS and Android mobile apps. After understanding how the COVID-19 pandemic reshaped the way a user consumes content, the Growth and Content teams at Airtel Xstream leveraged MoEngage to observe their users' consumption patterns and send relevant messages in real-time on Airtel Xstream's mobile platforms. These two teams are responsible for growing engagement on the Android and iOS mobile apps while retaining newly acquired users.
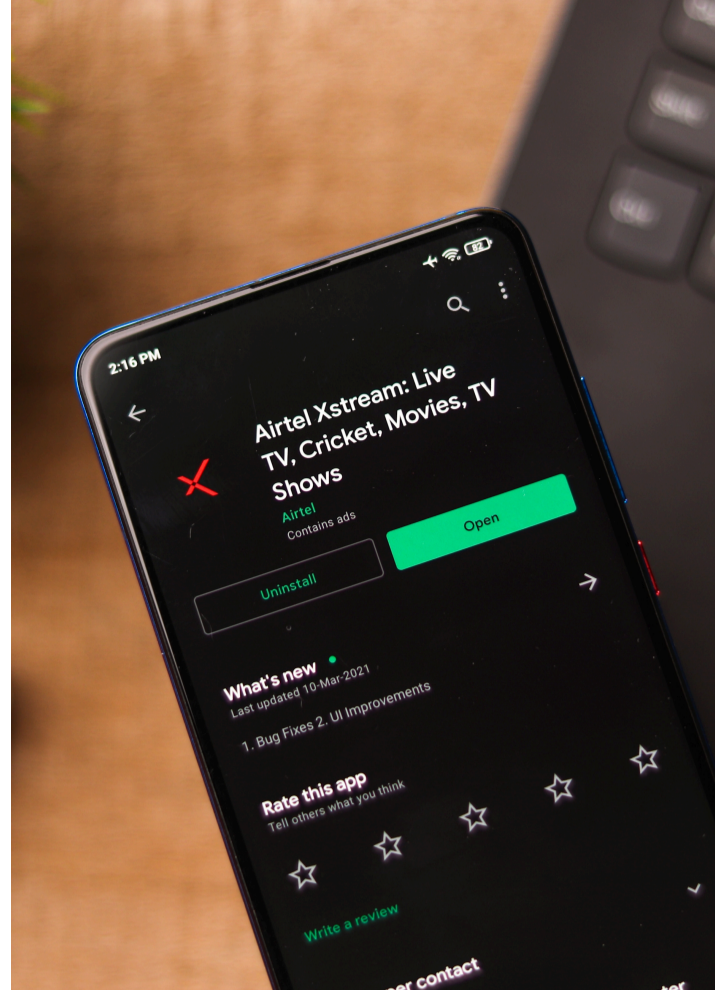

> MoEngage has made a significant impact on our North Star Growth metrics. During the India-Australia cricket series, our streaming statistics were at an all-time high, and we witnessed a retention rate of 61.4% on our mobile platforms. I would definitely recommend MoEngage to Mobile Marketers and Growth teams at Media & Entertainment brands.

Sahil Bhojwani,
Growth Marketing Manager @ Airtel Xstream, Airtel Xstream

Challenges to Growth

The COVID-19 pandemic transformed content consumption from static to dynamic. Consumers across geographies are more alert now and need a consistent and continuous feed of information and entertainment.

Increasing Content Consumption on Airtel Xstream's Mobile Platforms

The most significant focus area of the Growth and Content teams is to increase content consumption. 'Streamtime' and 'Streamtime-per-subscriber' are the two primary metrics used to measure the performance of User Engagement campaigns. Push Amplification+, MoEngage's unique Push Notification delivery technology, ensured that the team could reach out to the maximum number of users interested in this live event. The Growth and Content teams at Airtel Xstream also used MoEngage's in-app interstitials, MoEngage Nativ, to inform logged in users of the India-Australia cricket series. This communication channel allowed the teams to redirect their users to this ongoing live event successfully.

Improving n-day Retention

As with all major video streaming platforms, the other key focus area for the teams at Airtel Xstream is User Retention. The teams measure this by tracking the number of users who have opened the Xstream mobile app and consumed video content at least once within a period of time (usually 30 days). MoEngage's RFM modeling allowed the teams to analyze and segment users based on their recency and frequency of app usage. This eliminated guesswork from the process enabling teams to run data-backed campaigns and win back inactive users.

Products Used
Smart Recommendations
Build personalized experiences by driving most relevant product recommendations.

Push Amplification +
Deliver push notifications to more customers with proprietary Push Amplification™ Plus technology.

Customer Journey Orchestration
Create unique, seamless experiences at every stage of your customer's journey.

The Results

With the help of MoEngage's proprietary offering, Journey-based Campaigns, the Airtel Xstream team was able to send out real-time communication during major live events, leading to a significant improvement in their 'Streamtime' & 'Streamtime-per-subscriber' metrics. ● 40 million Push Notifications sent in under 2 minutes ● 1.4% click-through rates of Push Notifications ● 3.36X higher than standard delivery rates ● 85.6% conversion rate from mobile in-app interstitials The Growth and Content teams at Airtel Xstream also used MoEngage's in-app interstitials, MoEngage Nativ, to inform logged in customers of the India-Australia cricket series. This communication channel allowed the teams to redirect their customers to this ongoing live event successfully. The teams also used Personalization to entice customers to open the app and consume content by adding the customer's name on Push Notifications and using their geo-location to deliver vernacular content. They also orchestrated customer journeys with MoEngage Flows to win back bounced customers the right way.

About MoEngage

MoEngage is an insights-led customer engagement platform trusted by more than 1,200 global consumer brands such as Ally Financial, McAfee, Flipkart, Domino's, Nestle, Deutsche Telekom, OYO, and more. MoEngage empowers marketers and product owners with insights into customer behavior and the ability to act on those insights to engage customers across the web, mobile, email, social, and messaging channels. Consumer brands across 35 countries use MoEngage to power digital experiences for over 1 billion customers every month. With offices in 13 countries, MoEngage is backed by Goldman Sachs Asset Management, B Capital, Steadview Capital, Multiples Private Equity, Eight Roads, F-Prime Capital, Matrix Partners, Ventureast, and Helion Ventures. MoEngage was recognized as a Customers' Choice Vendor in the 2022 Gartner Peer Insights 'Voice of the Customer' for the Multichannel Marketing Hubs Report and a Strong Performer in the Forrester Wave™: Cross-Channel Marketing Hubs, Q1 2023 Evaluation.
